

Firebird®

THE HOME OF BLUE FLAME

Scope/Design, refurbishment & furniture supply
Sector/Manufacturing
Site/Belstone House, Langage

Overview/Working directly with our client, Engage Workplace discussed the needs of their organisation to establish the suitability of their proposed new premises at Belstone House in Langage, Plympton. Following Firebirds purchase of Belston House Engage Workplace were then appointed to refurbish the interior of the building as part of their relocation program, establishing their UK head office at Langage. Engage Workplace designed and proposed the ground floor refurbishment to include;

Lighting - Decoration - Carpet - Furniture

Following the successful completion of Phase 1 Engage Workplace were asked to propose a layout and refurbishment program for the 1st floor. This required designing and building a training area specific to their requirements to display their products, build a partitioned breakout space with kitchen and decorate, fix and repair ceiling and lighting and relay new carpet throughout.

Testimonial/"Engage Workplace were very helpful in our search for suitable premises advising on space and fit out for our needs. On completion of the purchase of Belstone House in Langage Engage Workplace put together a total package proposal to immediately make the ground floor offices and reception suitable for us to move in. On completion we worked on the designs and specification required for our specific needs on the 1st floor and again, this was undertaken meticulously and professionally and we are extremely happy with the end result."

- David Hall – Business Development Director
