

Scope/Design, specification & furniture supply

Sector/Training

Site/Tamar House, Saltash

Overview/In February 2017, Hemsley Fraser contacted Engage Workplace with a request "to provide an inspirational design in a challenging narrow office space".

After the site survey and initial design layout plans, Engage worked with Hemsley Fraser on the colour scheme providing a mood board with fabrics, steel finishes and wood samples creating a pallet that blends well and is vibrant and stimulating. Engage were then asked to specify and provide all the furniture in line with the space plan and working within strict budgets.

Design – Specification – Furniture

Following the successful completion of Phase 1 Engage Workplace were asked to provide a quotation for training room furniture that was specified from Hemsley Fraser's London office. Engage were able to negotiate best terms with the manufacturer and deliver and install as requested. Due to the clients immediate needs, Engage were able to provide temporary furniture to bridge the gap.

Testimonial/ "We were very pleased with Engage Workplace's approach to our requests and the proposed design created an environment that accommodated our needs in a long narrow floor. The plan included meeting area's using high backed sofa's and a colour scheme that worked well with our ethos. The delivery and installation was all carried out cleanly and professionally and without any hitches.

- Peter Fisher – Head of Procurement
