

AIREY consulting engineers COLES

Scope/Design, refurbishment & furniture supply

Sector/Construction

Site/Ashleigh Court, Langage Business Park

Overview/ Whilst undertaking a dilapidations and refurbishment on behalf of the Landlord Engage Workplace were approached to propose a detailed fit out design for Airey & Coles. Fully understanding a specific working need resulted in larger than average bespoke work stations with smaller dividing screens to create a clear central collaboration area for each team. Hanging decorative panels created an acoustic and aesthetic barrier between the task area and the breakout space, which included a table tennis table!

Design Works – Survey - 2D Spatial Design - 3D Visual Renders - Interior Design - Wall Graphics

Scope of Works/ New ceiling and lighting design, new carpet throughout with feature colour scheme, partitions reconfiguration and new fitted, air conditioning relocation and servicing, power and data repositioning and cabling, replacement of exterior glazing as required, new kitchen and tea point installed, full refurbishment of toilets and new shower fitted, specification and furniture supply

Testimonial/ "Engage Workplace were very helpful in checking the suitability of the premises advising on space and fit out for our needs. They asked searching questions and understood our requirements, proposing a bespoke workstation solution that ensured good team communications and collaboration. We are all really pleased with the bright and modern design and would be happy to recommend Engage Workplace"
