

MLA COLLEGE

Scope/Design, specification & furniture supply
Sector/Education
Site/The Merchant, Plymouth

Overview/Working directly with the client, Engage Workplace discussed the needs of the organisation to establish their exact requirements, taking into account all the elements to include style, quality, budgets and delivery schedule! With the construction and fit out of this central Plymouth prestige's office complex well under way and the start of the term fast approaching the pressure was on! With the deadlines and budgets firmly set daily discussions and site meeting soon produced a design and furniture solution that would meet all the client criteria!

Design - Specification - Furniture Supply

Process/Working with the architects we were able to utilise their drawings to work up an initial layout. After undertaking a site survey to ensure accuracy of our plans we then produced a costed presentation of all of the furniture required, to include reception, classroom and breakout furniture. We worked closely with the site construction team to manage delivery and installation in line with their site procedures

Testimonial/"It was a great pleasure working with Vince and the team who pulled out all the stops to ensure that we were ready for term time. Although some of the areas were not able to be fitted out on the installation Engage were very accommodating and stored the other furniture until the completion. I look forward to continuing to work with Engage Workplace going forward and would recommend that you give them a call!"

- Paul James - COO
