

Client: Higos Insurance, Plymouth
Sector: Financial Services
Size: 200sqm

Brief: The client had taken 2 ground floor units and wanted to knock through to create one large open plan space. The design brief was for a modern, bright space that also reflected their brand.

Outcome: The works included for new partitions, data cabling, flooring and breakout kitchen. The modern style bench desking with A frame leg frame and shorter desk screens help to create a spacious feel and improved communication.

Testimonial: “Engage were commissioned to carry out the fit-out of our (Higos Insurance Services Ltd) new offices in Plympton. The end result was a project delivered to an exceptionally high standard, on time, within budget and with only minimal supervision required in my role as Project Manager. The site staff were a pleasure to work with. I will have no reservations around employing this company on future projects - highly recommended.” – JP – Operations Manager
