

Client: PGMC, Plymouth
Sector: Health Care
Size: 100sqm

Brief: To create a flexible space for both collaboration and quiet working, with wellness at its core. This multi functional space is used as a quiet resting space for NHS staff, a comfortable lunch and breakout space and also serves as an area to support corporate events.

Outcome: A multi-use space with furniture specifically chosen for flexible working, such as high back sofas, modular tables, and quiet 'tree house' pods. The colour palette and artwork reflecting balance and calm, with sound absorbing acoustic panels above.

Testimonial: Posting on behalf of Plymouth Medical Centre – *“Engage were a fantastic company to work with. We had a tough brief which seemed an impossible ask but they delivered exactly what we needed/wanted. We've had excellent feedback from our centre users and would highly recommend using this company.”*
