

**Client:** Devon & Plymouth Chamber  
**Sector:** Business Support Services  
**Size:** 500sqft

**Brief:** To design, specify and furnish the office areas, conference room and breakout space to create a bright, colourful and practical working environment for staff, members and visitors.

**Outcome:** The vibrant teal branding is complimented by more bold colours in the breakout area for a welcoming and sociable space to eat, drink and collaborate. Botanical wall prints and wall mounted acoustic panels really lift the space giving it a modern but relaxed feel.

**Testimonial:** *"We asked Engage to come up with cost-effective solutions to replace all the furniture in our offices, break-out space and conference room. We wanted the place to be smart, professional and effective but without an extravagant budget. It was a joy working with Vince Brooks and the team to transform our premises into a modern, fresh and appropriately furnished suite of rooms that everyone comments on the moment they come in. Engage has turned a tired space into a warm and welcoming place in which we love to work and people love to visit. We can and do thoroughly recommend them."*
