

Client: World-Wide Optical Engineering, Plymouth

Sector: Design and Engineering

Size: 170sqm

Brief: Office refurbishment and fit out with an emphasis on high quality furnishing, and comfortable break out spaces for the staff to access during recreational time.

Testimonial: *“Our brief to Engage Workplace was a challenging one! We wanted to convert two units at the Science Park into a modern and functional workplace, design and fit a stylish kitchen and breakout space and build meeting room, lab and server room. We love the end result and were very impressed with the managing of the project from start to finish.”* CB – Design and Engineering Manager

Outcome: A luxurious and functional space with wood finishes and warm colours with aesthetically pleasing touches.
